Introduction...

The following is a collection of poems having to do with all the various shades of love I've encountered so far in this journey we call life. Over time my appreciation and experience of love has deepened and I've written as I've gone along. There is a Love with a capital "L" that is available to us and it is beyond human but not beyond appreciation. Many of the poems touch upon this Love and our relationship with it. I chose to focus my Love on the archetype – the Goddess – for every woman I've known has the Goddess within her to different degrees – all tempered by their attitude towards life.

I've come to appreciate that each person who reads my writings can and most likely will have a different interpretation of what a poem means. In the back of the book I have included a glossary of sorts. The glossary gives a short comment about the meaning or motivation for each poem. Some of the poems have a mystical direction to them, so if one or two don't make sense try thinking in terms of angels and who they associate with. If you like your interpretation better, run with it. It is my hope that my writings will touch your heart and cause your soul to stir.

Love to all,
David

BINARY

Binary

Let us dance - as yet at a distance
Two stars yearning
Internal - eternal fires burning bright
Exchanging streamers of caressing light
Feeding the hunger of dreamers
Illuminating this dark night

Oh, that the cloud which is I
Might coalesce before her - taking form
Kneeling knight
Eagle in flight
Oh-so-hungry lion
Innocent child of light
Grinning jester
Cautious tester of the waters

Daughter of light
Honest and open
Gossamer robe slips from tender shoulder
As she reaches out to touch
Yea and the lion's eyes glitter with delight

ON A WESTERLY

Love comes tenderly
Like butterflies on a westerly
Breeze - she comes easily
Caressing thy skin

In the midst of the whirlwind
Laughing and free of stain
Love kisses thy lips to silence
No need to explain
My lover
My life
No need to explain

Shuddering limbs
Thundering heart
Love is the answer
The dancer - lost in and one with
The song
Gossamer pirouette of divine silhouettes
Lost in wonder
Dancing thunder
Waking dream

SOULDANCE

Ah, to see the light in your eyes
The smile grace your lips
To hear your sighs
As sweet fantasy slips ever nearer

Let me be your mirror
The moment the sun dries the night's tears
Burns the night's fears away like mist
Each vision chosen
From the random scenes of waking dreams
Frozen moments of joy

Love everlasting
Is what I seek
The fisher of men casting a net of riddles
Speaking of light and happiness
Seeing beyond the shabbiness of this life
Moving beyond the regrets of the past
To make the shining moments last
Forever

Let's souldance, baby
Souldance
Take my hand, my love
Stand
Come take a glance, maybe
A second chance
Baby, right now

A new leaf turned
Stirred by the winds of change
Shadowed ways spurned
Perception rearranged
Souldance, my love
Souldance with me
Rise above

TAKE FLIGHT

Coming in for a landing
Been lost in contemplation
Still misunderstanding
How you can resist my sweet temptation

I'll make you howl at the ceiling
- sheets crushed in sweating palms -
Yeah tell me what you're feeling
Catch your breath
Beg for mercy
Apply the soothing balm

Lost little angel
Wrapped up in your wings so tight
I'll try another angle
Ah! Give in without a fight
No terms need be wrangled
Wrapped up in my wings you'll take flight

In me you can trust
You know I won't drop you
Submit! Admit your lust
You're in control - I won't stop you!

Come child
Rest in my wings
Your heart wants to be wild
And I can tell you of wondrous things

Open your heart - my angel
Spread your wings
Have trust - my little dove
You know I won't shove
Find out why the angels sing
While you're wrapped in the wings of my love
